

6 YEARS OF RE:WORK

This event at the end of our first funding phase aims to highlight the most important and recurrent themes of the discussions at our centre. We have invited current and former fellows from the different fellow years to make short presentations in their respective areas of research. This will be followed by commentaries by invited discussants to synthesize these contributions and further stimulate the discussion in the plenary.

Thursday, 04 June 2015

15.00 **OPENING INTRODUCTION**
